

IMPORTANT MESSAGE:

Announcing Our Preferred Specialty Pharmacy, *California Specialty Pharmacy*

January 2019

Sequoia Health is pleased to announce that *California Specialty Pharmacy* has been selected as a preferred specialty pharmacy provider to support the specialty and infusion medication needs of Sequoia Health patients.

California Specialty Pharmacy (CSP) is a leading full-service specialty pharmacy that provides quality drugs and services to patients with specialty medication needs. We anticipate that our new partnership with CSP will deliver improved service and greater convenience to our patients and providers and help Sequoia Health in ensuring the effective and appropriate use of these medications. Furthermore, CSP will help us ensure our patients taking specialty medications to get the support they need. They focus exclusively on supporting patients on specialty medications with personalized care, 24/7 access to clinical experts, patient education, refill reminders, free home delivery, and more.

Effective January 1, 2019, all NEW specialty drug prescriptions will be fulfilled by the CSP. This change will apply only to the new orders and will NOT affect the current members who are already using specialty medications.

Starting April 1, the CSP will manage all specialty pharmacy needs. Transitioning members will be carefully orchestrated by Sequoia Health to ensure patient care and treatment are not interrupted. Our priority is to ensure that the patients taking specialty medications have a smooth transition

A valid prescription must be submitted with your prior authorization request. Implementation of this simple step will expedite authorization processes and meet appointment demands and increase your patient satisfaction.

Collaborating with Sequoia Health, *California Specialty Pharmacy* team is excited about the opportunity to serve all of your specialty pharmacy needs.

For more information about California Specialty Pharmacy, visit www.CSPRX.com or call (877) 602-7779.
